

Paving the Way for a Healthier Future

Under its Healthcare Program, Hidaya operates several important projects which are aimed to educate, support, and relieve the over-looked needy people of societies. Please donate and help us to continue these much needed efforts.

Preventative Healthcare

Illnesses such as Hepatitis, Tuberculosis, Scabies, Diabetes, Sexually Transmitted Diseases as well as others are rampant in economically depressed areas of the world because the uneducated masses don't have an understanding of how to protect themselves.

Hidaya has launched a "Preventative Healthcare Project" in which we will be educating and treating the masses so they may protect themselves from contagious and dangerous but easily avoidable diseases. Distribution of Information Pamphlets, Vaccination Clinics, and Healthcare Seminars are all a part of this effort.

Medical Camps

In small towns and villages, camps are arranged and funded to benefit the poor.

Hospital Support

Medical Centers are supported with funds for their emergency rooms so that underprivileged patients can be treated with life-saving drugs and procedures.

Medical Support

Underprivileged patients are supported for visits to the doctor, lab tests, surgeries and acquiring medicines.

Equipment & Supplies

Through our Container Shipment Project, we ship hospital equipment, medical supplies, medical journals, medical & science textbooks as well as other useful equipment for use in hospitals, clinics, and other needed places in economically depressed areas.

Call us to Sign up for our "Automatic Monthly Withdrawal Program" towards healthcare projects.

Please donate online or mail checks payable to:
